REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)
150-9 RE

As a below named inventor, I hereby declare that:
My residence, mailing address and citizenship are stated below next to my name.
I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,024,902, granted FEB. 15, 2000, and for which a reissue patent is sought on the invention entitled INJECTION MOLDED PAIRED THERMOPLASTIC SPECTACLE LENSES SUITED FOR FULLY AUTOMATED DIP HARDCOATING the specification of which

☐ is attached hereto.

☒ was filed on Feb. 8, 2002 as reissue application number 10 / 071,569
and was amended on June 16, 2004
(if applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☒ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The original patent was rendered invalid at least because its specification incorrectly made reference to prior copending applications. Namely, the specification under "Related U.S. Application Data" incorrectly cited: "Division of application Serial No. 08/795,903, filed Feb. 5, 1997, now U.S. Pat. No. 5,750,060, which was a Division of application Ser. No. 08/795,613, filed Feb. 5, 1997, now U.S. Pat. No. 7,750,156, which was a Division of application Ser. No. 08/533,126, filed Sep. 25, 1995, now U.S. Pat. No. 5,718,849." This information was incorrect.

Instead, the correct reference to co-pending applications should read as follows: "Division of Ser. No. 08/533,126, filed Sep. 25, 1995, now U.S. Pat. No. 5,718,849."

In addition, the reissue is a broadening reissue. Namely, the broadening of claim 1 includes eliminating at least the following language from claim 1: "... (ii) handling said paired lenses by automation within said cleanroom air enclosure without any human operators therein..."

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The original patent was rendered invalid at least because its specification incorrectly made reference to prior copending applications. Namely, the specification under "Related U.S. Application Data" incorrectly cited: "Division of application Serial No. 08/795,903, filed Feb. 5, 1997, now U.S. Pat.
